Professional Summary

Full-stack web developer and Computer Science student with hands-on experience building responsive, production ready applications using JavaScript, Node.js, React.js, and MongoDB. Strong problem-solving ability backed by 70+ DSA solutions and Good academic rankings.

Education

- **Supaul College of Engineering, Supaul** June 2023 – Present
Bachelor of Technology in Computer Science Engineering **CGPA: 8.51/10**

Projects

- **Gen AI Interview Prep Platform – MERN Stack** [\[Live\]](#) [\[GitHub\]](#)
React.js, Node.js, Express.js, MongoDB, JWT, Google Gemini AI, Puppeteer, pdf-parse, Multer
 - Built a full-stack AI-powered interview preparation platform with **JWT authentication** and secure **token black-listing** for session management
 - Integrated **Google Gemini AI** with Zod schema-enforced structured output to generate personalized interview reports, including job match score (0–100), technical behavioral QA with interviewer intent, skill gap severity ratings (low/medium/high), and a day-wise preparation roadmap
 - Engineered a dynamic **resume PDF generator** that tailors resume content to the target job description using Gemini AI and renders **ATS-optimized PDFs** via **Puppeteer**
 - Implemented PDF resume parsing with **pdf-parse** and file validation via **Multer**, feeds extracted resume text directly into AI prompts for context-aware analysis
- **AI Code Reviewer – MERN Stack** [\[Live\]](#) [\[GitHub\]](#)
React.js, Node.js, Express.js, MongoDB, JWT, Google Gemini AI, PrismJS, react-markdown
 - Built a full-stack AI-powered code review platform with **JWT authentication** and **token blacklisting** for secure session management
 - Integrated **Google Gemini 2.5 Flash** with a detailed senior-developer system prompt to analyze submitted code for bugs, security vulnerabilities, performance issues, and best practice violations
 - Implemented a **syntax-highlighted**, in-browser **code editor** using react-simple-code-editor and PrismJS, with **real-time AI feedback** rendered as formatted Markdown via react-markdown and rehype-highlight
 - Protected the review feature with auth-gated routing, unauthenticated users are redirected to login with a return URL, ensuring seamless post-login navigation

Experience

- **Summer Entrepreneurship Intern – Web Design** Mar 2026 – Apr 2026
Edulogy Institute (MSME Registered, AICTE Powered, National Internship Portal)
 - Completed 6-week online program in **Web Design using HTML, CSS & JavaScript**; awarded **Grade A++**
 - Built a fully responsive **personal portfolio website** using HTML5 and CSS3, featuring smooth scroll navigation, project showcase section, and contact form layout
 - Developed an interactive **product landing page** with CSS animations, flexbox/grid layouts, and JavaScript-driven dynamic content rendering
 - Implemented **JavaScript DOM manipulation** projects including a to-do list app, image slider, and form validation module with real-time error feedback

Technical Skills

- **Languages:** Java, JavaScript, C, C++, HTML5, CSS3
- **Frameworks & Libraries:** Node.js, Express.js, React.js, Bootstrap 5, Tailwind CSS, EJS
- **Databases:** MongoDB, MongoDB Atlas, Mongoose ODM
- **Tools & Platforms:** Git, GitHub, VS Code, Render, Postman, Vercel
- **Core CS:** Data Structures & Algorithms, OOP, OS, DBMS, Computer Networks

Certifications and Achievements

- Secured **2nd Rank** in College Coding Contest - organized by College Coding Club
- Secured **3rd Rank** in 1st Year and **2nd Rank** in 2nd Year; honored with Academic Excellence Awards
- Secured **3rd Rank** in College Python Workshop
- Completed **Cisco Networking Academy** courses: Cybersecurity Essentials, Python Essentials, CPP Essentials
- Certified in **Advanced C++ Training** – Spoken Tutorial Project, IIT Bombay
- Certified in **Introduction to Computers** – Spoken Tutorial Project, IIT Bombay
- Solved **70+ DSA problems** across LeetCode, GFG, CodeChef, and HackerRank
